PRACTICAL PROVEN BREEDING

BULL INFORMATION

Name	Noud van de Plashoeve
Herdbook number	NL 534956299
A.I.-code	36878
colour	EW
Breed	100% BBL
Date of birth	2011-03-29
Gest. length days	
Gestation length	92
Calving ease	128
Straw colour	Light Blue

Noud van de Plashoeve is a son of Dorus Ter Reybroek from the Belgium breeding farm of Lips, who breeds for natural calvings. Elke 22 is a daughter of Unicus van Phaenocryst. He is a bull of which 60 to 70 % of his daughters calve naturally. Besides this, Unicus was (slaughtered) one of the heaviest bulls with a carcass weight of 967 kilograms.

Elke 22 gave birth to 4 calves and they were all born naturally. Also Elke 22 herself was born naturally. Noud's grand dam had 2 caesarians and 2 natural births. Noud himself is a well build bull and has strong feet & legs and a good locomotion. The expectations on Noud are very high.

We have a lot of practical data available from Noud. This pleads for him to be a crossbreeding bull. Although we have to test him to find this out. Noud is a bull you can use with confidence, we can't however guarantee this for certain (as always) If we have to estimate the chance for easy calvings in stars, we give Noud 4.5 out of 5 stars.
