aAa code	534	Cow family	
colour	RB	Straw colour	Purple
Breed	87,5% MRIJ/12,5% HF		

Oscar is a Remco son, whose sire is Mathijs, who is well-known to everyone and who passes on excellent percentages.

The dam is Liana 30 and comes from the breeding farm Blohm from Schleswig Holstein. This company has a beautiful herd with highly productive dual-purpose cattle, and they do not shun the use of their own bulls. In fact, Liana 30 is a daughter from one of their own bulls. Liana 30 is a very, dairy rich cow with a good milk flow and level of productivity. After a high third lactation, her fourth lactation is even better with a higher level of milk and fat.

Oscar is a strong, well-built bull, is more than 65% red and is a bull with plenty of muscularity. Oscar is also a bull who brings in some new blood and thus would be a welcome addition in the dual-purpose segment.
