

Grashoek Stoll 13
(daughter of Perplex)

BULL INFORMATION

Name	Perplex P	Date of birth	1999-10-04
Herdbook number	DE 0344774824	Kappa Casein	AB
A.I.-code	36438	Beta Casein	A1/A2
aAa code	513	Cow family	Natalie
colour	RB	Straw colour	Red
Breed	100% HF		

The bull Perplex (Pp) is a bull that distinguishes quite a bit compared to the standards of K.I. SAMEN. First of all knows Perplex an interesting pedigree (Polled Plus x Deister x Trivalent). Besides this is the dam line a line that over the last couple of years attracted quite some interest.

Probably even more interesting is the fact that Perplex remained hornless after his birth. This means that 50% of his progeny will be born polled.

This last aspect is inherited from his sire Polled Plus. This red-factor Aerostar son descends from a cow-family that carries this genetic type for generations. Polled Plus is a real all-round bull, as well on conformation as production.

Natalie, Perplex's dam is an exceptional cow, looking at the combination of production and conformation. This, 93 points registered Deister daughter realized extreme good production figures. Besides this she was very often present during several shows. She belonged to the best red & white cows at the Brussel show in 2000 and became in that same year national champion in Germany. These performances didn't come from a stranger, her dam and granddam (both VG 88) also realized great production- and conformation results. This resulted in high lifetime productions. Both cows are still present on the farm...
