Plataan Faster (Sabre x Brewmaster x Mascol) represents the third bull from the Plataan Frida line to be put into the service of K.I. SAMEN. The late maturing, productive Fridas breed very consistently, which means hardly any cows are prematurely rejected for production. As the bulls in Faster's pedigree also all have very reliable, daughter-proven data, there is no doubt that Faster has a great future ahead.

One of these solid, reliable breeding bulls is Sabre, Faster's sire. Similar to Faster, Sabre carries the A2A2 gene for beta casein and both bulls can claim a robust frame that includes great width. Sabre also transmits good udders and correct legs and his daughters show good progression in their production figures over the lactations. As well as good udder health, his daughters have remarkably good fertility and durability traits.

Following in the footsteps of Friday and Florus, Faster is the third bull from the Frida family to join the ranks at K.I. SAMEN. This pedigree stands for very good conformation (seven generations of cows scoring 84 points or higher) and the Fridas are now widely spread in the breeding population, particularly thanks to Faster's grand dam Frida 1. This Mascol daughter alone has produced at least 20 daughters! Flushing Frida 1 with Cricket and with...
