BULL INFORMATION Name P.M. Flver Date of birth 2017-05-17 Herdbook number NL 681804278 279 Gestation length A.I.-code 361136 Kappa Casein AA aAa code 243 Beta Casein A2/A2 ZΒ Elza colour Cow family

Straw colour

100% HF

Fabulous conformation, the red factor and A2A2 are just a few of the traits that are attracting plenty of attention to the wonderful P.M. Elver rf (Silver x Talentino x Classic). Sired by a king of conformation, Silver, and with the famous line of champions the Elza family in his maternal line, Elver rf carries the promise of amazing conformation in his pedigree. Following in the footsteps of Red Torpedo (also a member of the Elza line), Elver rf is the second bull from this pedigree to be tested by KI.

As already mentioned here, Silver, Elver sire, passes on phenomenal conformation traits. He is able to vastly improve all conformation traits to an extensive degree and has exceptional scores for udders. He also adds value in terms of performance, contributing generous milk production combined with higher than average components. His progeny also inherit good milking speed partnered with a favourable somatic cell count, and very good scores for claw health and durability.

The cows in the Elza-family, who we come across in Elver's maternal line, show many similarities with the traits offered by his sire Silver. They also have impressive conformation and produce milk that is rich in components. This line has already produced the breeding bull Red Torpedo. Both bulls have a common...
