PFW code	C	Beta Casein	A1/A2
aAa code	432	Cow family	W.Kanu
colour	RB	Straw colour	Red
Breed	100 % HF		

Poppe Forceful Red P is an addition to the polled range at K.I. Samen. His maternal line has frequently been used in our breeding programme, most recently in the shape of Poppe Kayne.

Kayne's dam is the grand dam of Forceful Red P. Through flushing his dam acquired a longer, but very impressive first lactation record. His grand dam has now clocked up lifetime production of 67,000 kg with 4.61% fat and 3.70% protein!

The originally German K-family is a regular supplier of bulls for use at AI stations. With Frisbee rf as his more unusual bull sire for the red-and-white segment, K.I. Samen can now offer a fresh addition to its red-and-white and polled portfolio.
