Kayne's dam is the grand dam of Forceful Red P. Through flushing his dam acquired a longer, but very impressive first lactation record. His grand dam has now clocked up lifetime production of 67,000 kg with 4.61% fat and 3.70% protein!

The originally German K-family is a regular supplier of bulls for use at AI stations. With Frisbee rf as his more unusual bull sire for the red-and-white segment, K.I. Samen can now offer a fresh addition to its red-and-white and polled portfolio.
