BULL INFORMATION

Name	Raw-Hill Kingly	Date of birth	2009-01-16
Herdbook number	NL 604728511	Gestation length	294
A.I.-code	36774	Kappa Casein	AB
aAa code	126	Beta Casein	A1/A1
colour	AZ	Cow family	Dora
Breed	100% HF	Straw colour	Turquoise *

High percentages, the golden cross Kian x Lightning AND lineback, this all can be found in the bull Raw-Hill Kingly (Kees x Kian x Lightning). On top of that Kingly knows three generations with protein bulls in a row.

Lineback bull Erfgooyer Kees, sire of Kingly, is a percentages bull pur sang. Kees breeds moderate sized cows with fine udders and good feet & legs. They can be described as ideal cows for the Dutch housing circumstances. Cows with average fertility and a very good udder health. Further striking is the very good persistency, extreme late maturity and sky-high scores for longevity.

Kingly's dam Dora 32 origins from the very successful combination Kian x Lightning. Some of current's best red & white proven bulls have this similar cross. The thing which both bulls have in common (positive protein and very good feet & legs) can be recognized in Kingly's dam (Dora 32) and granddam Dora 28 as well. They score an average protein level of 3.78% and 3.68% (in 305 days) and 86 and 87 points for feet & legs respectively. Besides this, the longevity in the Dora family is very good – resulting in high lifetime productions. All together qualities which fit great in today's Holstein and Red Holstein population and a beautiful alternative for the lineback...
