A.l.-code	361235	Kappa Casein	AB
aAa code	234	Beta Casein	A1/A2
colour	RB	Cow family	Etazon Hyde
Breed	100% RHF	Straw colour	Beige

The polled Red Rocks Joran P (Jacko PP x Nano P x Briljant) can boast a slightly unusual pedigree and - equally as important - an awesome cow family. The family we are referring to is the exceptionally successful Hyde line, that figures in Joran P's maternal line. Rarely has one and the same cow family produced so many breeding bulls (including Jacuzzi and K.I. SAMEN bull Slash).

Marginally less well-known is the robust cow family (the Josefien line) behind the homozygous polled bull Jacko PP, who sired Joran P. Thanks in part to the contributions of bulls like Balisto and Snowfever, calving ease bull Jacko PP offers an interesting pedigree for the red-and-white segment. In addition, he passes on balanced, all-round production and conformation traits: positive scores for milk and components and good scores for traits including udders and legs. This picture is nicely completed with super udder health, fertility and durability.

The Hyde family mentioned above, represented in Joran P's maternal line, has its origins in the USA. Cows from this line excel in good conformation (10 generations of VG cows) and high lifetime production. A few examples include Marconi daughter Shera with lifetime production of more than 150,000 kg and O-Man daughter Sylke (the 5th generation in Joran P's...
