Solid production and good conformation are important aspects that are considered in the acquisition policy at K.I. SAMEN. Another priority is diversity in the bloodlines, as well as the external traits of the bull itself. The powerfully built bull Red Rocks Maddock (Julandy x Tequila x Mascol) certainly ticks all those boxes! And, as an added bonus, he also offers the A2A2 variant for beta casein.

Whereas Maddock's maternal line really stands out as a component family, his sire Julandy adds plenty of milk combined with a protein score that remains constant. The good conformation he passes on to his daughters has resulted in numerous champions. His daughters are very nicely developed, good true types and have good udders and legs.

Maddock's maternal line offers a pedigree that is a little out of the ordinary. Numbering bulls such as Red Tequila, Mascol and Lucky Leo in its pedigree, this Massia family really brings a different mix to the red-and-white pool. The cows in this family also contribute excellent conformation (seven generations of VG cows) and achieve high lifetime production with sky high components. Maddock's great grand dam Massia 6 (VG 86) noted lifetime production of almost 80,000 kg of milk with in excess of 3.50% protein. Her daughter, and the grand dam of...
