Alger Meekma

Red Rocks Massia 17 (VG 86)
 (grand dam of Rasputin (Pp))

BULL INFORMATION

Name	Red Rocks Rasputin P	Date of birth	2016-08-08
Herdbook number	NL 883371431	Gestation length	278
A.I.-code	361097	Kappa Casein	AB
aAa code	432	Beta Casein	A1/A2
colour	RB	Cow family	Massia
Breed	100% HF	Straw colour	Geel

The attractive and nicely developed Red Rocks Rasputin (Pp) (Kansas P x Red Tequila x Mascol) descends from a line of black-and-white bulls with many famous names and a respected, international reputation as bull sires. Another striking feature of his pedigree is the difference in predisposition for milk and component production between his maternal and paternal lines. Whereas his maternal line excels in high components, his sire comes from a family that passes on high milk production.

And Rasputin's sire Kansas P passed on another positive boost in the form of the polled gene. Kansas P inherited this gene from his sire Kanu P (Colt P x Snowman), a bull that enjoyed international fame and was widely used thanks to his high milk inheritance, great conformation (in particular good udders) and an outcross pedigree.

The outcross factor also applies the maternal line of Rasputin. Numbering bulls such as Red Tequila, Mascol and Lucky Leo in its pedigree, this Massia family brings a different mix to the red-and-white pool. Plus, the cows in this family contribute excellent conformation (seven generations of VG cows) and achieve high lifetime production with sky high components. Rasputin's great grand dam Massia 6 (VG 86) noted lifetime production of almost 80,000 kg of...
