Not to be missed for lovers of a good conformation and for a different blood line is the bull breed in Germany, Anyway RH (Edway x Titanic x Prelude). Anyway RH is the result of the combination between the 2 top families from the well-known breeder Antonius Richter: the Meggilee line (via paternal side) en the Gloria-pedigree (via maternal side).

Two families with excellent conformation and high lifetime production. The strong influence from the legendary Canadian star, Hanoverhill Starbuck, can therefore be found back within both lines.

Edway (the sire of AnywayRH) comes from the Meggilee family, a line that is known for, among other things, several successes at shows and several bulls for breeding. Edway is a son of Elayo from the excellent September Storm, half-sister to Norwin RC. Edway is known as an all-round bull. He has a fine production index and combines this with exceptionally good conformation and good secondary features (such as a great cell count). His beautiful daughters have good legs and high and well attached shallow udders.

The maternal line (the Gloria pedigree) of Anyway RH can trace its origins back to Canada. Not only does this line have a Canadian tint, the use of the bulls in the "younger" generation even have a significant Canadian...
