A.I.-code	361265	Kappa Casein	AB
aAa code	516	Beta Casein	A1/A2
colour	ZB	Cow family	Hilda
Breed	100 % HF	Straw colour	grey

The bull Ribbs Skik (Saul Hudson x Startrek x Metode) can be called a true newcomer to the scene. As well as his unusual bloodline, this bull also descends from a maternal line that has not been used before for AI purposes. Robustness and protein, inherited from both his maternal and paternal pedigrees, are central to his qualities.

His sire Saul Hudson is expected to transmit all-round conformation traits with daughters of an average stature with very good feet and legs. The production figures show good, positive signs for milk yield and components. Through his dam, Saul Hudson is a half-brother of Slash.

Some cow families are regular suppliers of bulls for the AI station, but Skik is the first bull from the Hilda line to take his place on the AI stage. Hilda cows stand out in the herd for a number of reasons. They exhibit good conformation that includes plenty of width, and show extremely good production with high component percentages. They particularly excel in terms of protein, and durability is also anchored in their performance. Skik's dam and grand dam are both still active herd members, and his great grand dam Hilda 6953 (VG 85) and great great grand dam Hilda 197 (VG 85) realised six and eight lactations respectively. To complete the picture, the Hildas are fine...
