Ringfort Cormac is an Empire D'Ochain son from Ireland. He is descending from a famous Belgian Blue dam line; the Boontjes van de Wolvendreef. Cormac scored in homeland Ireland the maximum 5 out of 5 stars for suckling calves. His index for gestation length is excellent and was also scored with 5 out of 5 stars; in other words: a short gestation length.

Upon our request Cormac has been tested for all 7 defects and he has been tested free from all seven. His mobility is very good, which you can see for yourself in a short video (made when he was younger).

Cormac inherits size, mass and mobility, a shorter gestation length and trouble-free calves.
