A.I.-code	361050	Kappa Casein	AB
aAa code	432	Beta Casein	A1/A2
colour	ZB	Cow family	Kate
Breed	100% FH	Straw colour	Green

Rivelino 592 is from one of the purest bred Black Holstein lines in the world, with a matriarch that was born in 1946. This pure Friesian line ensures that it can be put to use almost blindly, without risk of inbreeding. More importantly, the combination with the Rivelino's is somewhat of an "outcross", namely foreign blood, within all the Black Holsteins. This health and vitality is something that the offspring can benefit from.

A certain number of functional characteristics are firmly anchored within the Rivelino line. The production tendencies are fine and furthermore allow many of the bulls to see an above average persistence and maturity. In addition to showing a nice plus for protein. What also stands out in particular is the depth of the frames, the excellent feet & legs and the exemplary udders. Not only within the line itself, but also for the users. Rivelino bulls clearly imprint these characteristics on their offspring because of the high purebred nature of these animals.

A particularly unique characteristic of the Rivelino line is the great ease with which the calves are born and, of equal importance, how easily they in turn calve. The first calves of Rivelino 592 were born and it looks very promising, especially given the problem free calving of the heifers. The...
