colour	EW
Breed	100% BBL
Date of birth	2017-06-02
Gest. length days	278
Gestation length	99
Calving ease	115
Straw colour	White

Riveur van Maris is the third bull to emerge from the barns of the Hunnekens family in Grashoek. With Riveur we have paid attention to a short gestation time, which at 278 days is clearly shorter than average. Riveur is a well-built bull, with the corresponding muscularity and he has great feet and legs. Riveur is expected to produce calves with above average muscularity combined with sufficient fineness of bone. Riveur is a highly vital bull - a trait we expect his calves to inherit.

Riveur ranks 3.5 out of 5 stars.
