PRACTICAL PROVEN BREEDING

BULL INFORMATION

Name	Roberti van de Veneburen	Date of birth	2014-11-27
Herdbook number	NL 871651819	Kappa Casein	AA
A.I.-code	361025	Beta Casein	A1/A1
aAa code	516	Cow family	Rosemarie
colour	ZW	Straw colour	Green
Breed	100% LV		

Recently, K.I. SAMEN has put a black Lakenvelder bull called Roberti van den Veneburn to use. Roberti was bred on the farm of Arie den Blanken in Makkinga, which was designated in 2016 by the Rare Dutch Breed Survival Trust (SZH) as a Recognised Breeding Centre.

The technical commission for breeding of the Lakenvelder Association is, in the search for new bulls for breeding, always on the lookout for bloodlines of suitable candidates as an artificial insemination bull. It is therefore of great importance to maintain sufficient bloodlines within the small population of the Lakenvelders. Roberti fits this profile quite well. Since natural service of the bulls is almost always used at the Veneburen farm, the contribution of artificial insemination bulls in their pedigree is relatively small. Many of the popular A.I. bulls used like: Cor, Heiko, Toon, Ormelo's Gijs, Jeroen, Wilex 1 and Sjaak are missing altogether in his pedigree.

Roberti descends from the well-known 'Roos' maternal line. Herd-mother Roos was one of the first Lakenvelders on the van den Blanken farm, which was roughly 20 years. Many of her descendants have achieved since then the status required by the Pedigree Herdbook. Rosemarie van den Veneburen, the grand dam of Roberti, was Most Valuable...
