Ruud was sired by Rein van Boszicht, who produced good calves out of the half-sister of Alfa and Alfa 2. He is a half-brother of Ard. Ruud shows slightly more muscularity than Ard.

The breeding efforts of the Van de Plashoeve farm have already resulted in more than 10 bulls at K.I. SAMEN. Bulls such as Noud, Dorus, Bruno, Menno and Bob have all passed with flying colours in practice. All these bulls can be relied on for good calving ease.

Ruud's calving ease, like the other Plashoeve bulls, will be good. His calves may possibly be a little heavier than Ard's but never by much. Ruud scores 4.5 out of 5 stars for calving ease. We have a great deal of confidence in this bull too!
