colour	EB
Breed	100% BA
Date of birth	2016-04-27
Gest. length days	
Gestation length	
Calving ease	
Straw colour	Various Colours

Silverwood Mark is an English bred Blond d' Aquitaine bull with a completely English bloodline. As a young bull he won a very strong show class and was immediately sold for the AI segment. He has a lot of body length and very good muscular mass in the hind quarters. His sire Ardmore Gargoyle produced many sons, who were later used for breeding.

All the sons produced by his dam were also sold on for breeding. Her pedigree is also known for calving ease. In terms of calving ease, Silverwood Mark is ranked among the top bulls in England. Silverwood Mark contributes a different bloodline and will pass on good growth and adult weight to his progeny, combined with a light weight at calving. Silverwood Mark is an ideal calving ease bull, who nicely complements the current range of Blonde d' Aquitaine bulls offered by K.I. SAMEN.
