Steegink's Waikato (Lenox x Leroy Abrian x Holthuizen Orkaan) is a bull with wideness, length and super feet & legs. This bull has a complete outcross pedigree and is supported by good Dutch cow families, both trough his dam- and sire line.

Waikato's sire Lenox is a Lentini son from a high productive family, the Cobie's. The Cobie's know a lot of milk with narrow fat / protein ratio and very good conformation. Lentini shows roughly spoken the same thing and accordingly we can expect the same from Lenox.

Waikato's dam line, the Ineke's, is a strong family with hard working cows. On production side, the Ineke's score easily above the herd average and also the conformation is of a good level. The most impressive cow is probably Ineke 312, Waikato's dam. With an average lactation value of 116 in her first three lactations and her very good conformation (VG 86) belongs Ineke 312 to one of the best Leroy Abrian daughters. This Abrian bull is one of the best Labelle sons, with as result that Abrian became bull sire.
