We can offer semen from Steggles Pablo, a highly popular Speckle Park bull who was bred in Australia. He has very good legs and a lovely character. His progeny grow easily and quickly.

Pablo is a bull with an out of the ordinary pedigree from a breed that is growing in popularity worldwide. Speckle Park cattle are not a solid colour, but are beautifully marked with black speckling. Pablo is a calving ease bull who gives easy births.

The Speckle Park breed combines the qualities of Angus with those of the British White Park, known for its vitality. In addition, the British White Park contributes the stunning speckled markings. Use Steggles Pablo with confidence for easy calving. We rank him with top marks (5 out of 5) for calving ease.
