colour	EB
Breed	100% BA
Date of birth	2020-01-03
Gest. length days	
Gestation length	
Calving ease	
Straw colour	White

Stonelea Orion was sired by Hallfield Einstein. His powerful build and excellent muscling are impressive. Orion has fabulous legs and is showing extremely good growth. The Irish AI station that is home to Orion says he is the best Blonde bull they have ever had.[DH1] He is a complete outcross for most French pedigrees and his first progeny show plenty of potential and, without exception, all have excellent muscularity.

No calving details are available for this bull as yet because Orion is still young (date of birth January 2020).[DH2] Orion is a bull who will enhance muscularity and give high yield carcasses in combination with very good legs. Orion also has a good-natured character and his reputation is expected to grow as more offspring are produced in the years ahead.
