

Alger Meekma

Breeder: Dhr. Jan Banckaert, Waarschoot, België

- + Outcross
- + Good udders
- + Heterozygous polled
- + Calving ease bull
- + Beta casein A2/A2

BULL INFORMATION

Name	't Lievehof Elano Red P	Date of birth	2017-12-09
Herdbook number	BE 513567117	Gestation length	283
A.I.-code	361144	Kappa Casein	AB
aAa code	315	Beta Casein	A2/A2
colour	RB	Cow family	
Breed	100% HF	Straw colour	Grijs

To ensure sufficient diversity in the bloodlines in its portfolio, K.I. SAMEN always attempts to introduce a wide choice in pedigrees when acquiring new bulls. A bull that perfectly reflects this philosophy is 't Lievehof Elano Red (Pp) (Edelmut x Lawn Boy x Cadon), who was bred in Belgium. Elano Red also offers the heterozygote polled gene (50% of his descendants will be born polled) and the A2A2 variant for beta casein.

Elano Red's sire Edelmut (Ellmau x Sterngold), with his 7% score for kinship, certainly offers a new impulse by carrying a less common pedigree. He partners great production with very good, all-round conformation. Notable aspects of his profile for conformation include super udders (compact and firmly attached) and the slightly curved leg position (viewed from the side).

In Elano Red's maternal line - that excels in components - we come across cows including Mina 27 who ranks excellent. In her time, this Johan daughter was a name of note in MRIJ breeding circles and goes back nine generations in Elano Red's pedigree. Her daughter by ED Thor, Mina 34, was a full sister of the former breeding bull Toppop. A generation back leads us to Mina 58, dam of animals including breeding bull Montreal. Via daughters of Blackstar and Jubilant, the trail takes us to Rina (VG...
