First calf Theodorus van Halfweg

Rambo Van Vredenburg ♂	Diabolo ♂	
	Emsterhoeve Alyshia ♀	
Sophie Van Halfweg ♀	Frans ♂	
	Corn. Hoeve Melissa ♀	

THEODORUS van HALFWEG is bull who offers plenty of length. He saw service as the herd bull on the Wagensveld family farm and came to K.I. SAMEN as a mature animal. He was born on the Veerman farm in the Zuidoostbeemster region, a well-known name in Improved Red Beef (VRB) breeding circles.

Theodorus has a good extent of muscularity combined with very good legs. He has a lovely character and was very easy to manage during his time as the Wagensveld family's herd bull. Theodorus merits 87 points for his general conformation, with 88 for development, 87 for type, 88 for muscularity and 86 for legs. The first calves sired by Theodorus have already been born and are showing lots of promise. Theodorus is a very welcome addition to the Improved Red Beef (VRB) breeding segment.
