

Alger Meekma

Breeder: J. en F. Steenblik - Tetteroo

- + Modest stature
- + Heterozygous polled
- + Calving ease bull
- + Beta casein A2/A2
- + aAa 513

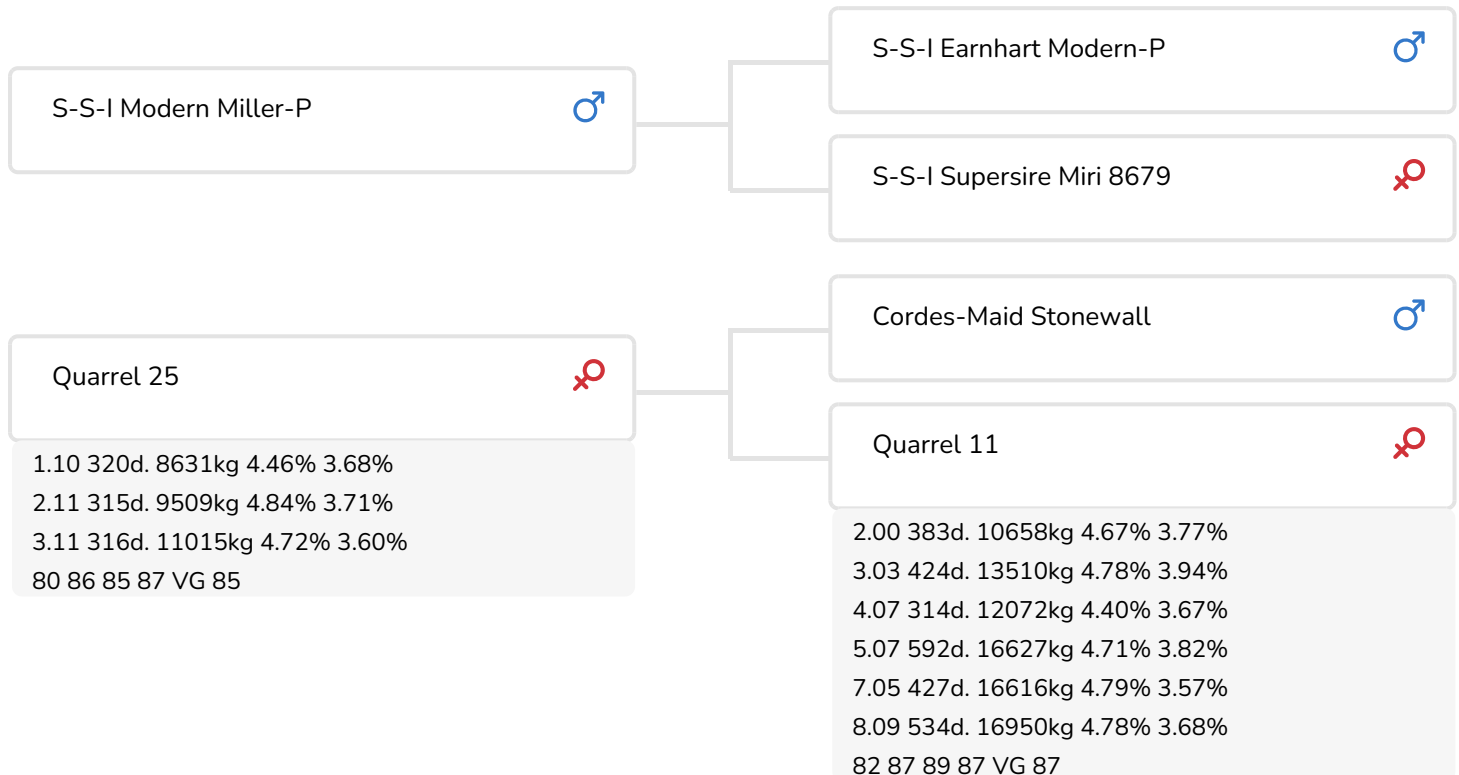

Alger Meekma

Quarrel 11 (AB 87)
(grand-dam of Quintana (Pp))

BULL INFORMATION

Name	Tichel Quintana P	Date of birth	2017-06-27
Herdbook number	NL 716378606	Gestation length	280
A.l.-code	361138	Kappa Casein	AA
aAa code	513462	Beta Casein	A2/A2
colour	ZB	Cow family	Quarrel
Breed	100% HF	Straw colour	Rose

Tichel Quintana (Pp) (Miller-P x Stonewall x Jorryn) is a balanced, dairy type (aAa 513) who comes with a pedigree with roots in the USA on both the paternal and maternal sides. His sire's pedigree brings qualities that give extra milk production, while the basis of his dam's contribution is good components (incl. protein). In addition, Quintana has inherited the A2A2-variant for beta-casein from both lines and the polled gene from his sire Miller-P (50% of the offspring will be born polled).

Quintana's sire Miller-P has a family tree that notes one of the most outstanding cow families in the USA: Seagull-Bay Oman Mirror. Bulls like Mystic, Morgan, Midnight, Mayflower, Modesto and very recently Jedi are all products of this pedigree. Each and every one an incredible bull who offers traits including sky high scores for milk and longevity. Miller-P can join these ranks with ease, as evidenced by his breeding values (which are now based on his productive daughters). Miller-P transmits a lot of milk and good, all-round conformation. He also scores well on secondary traits (somatic cell count, fertility and durability).

The origin of Quintana's maternal line is the USA. The Quarrel family has very good conformation (10 generations rating VG or EX) and outstanding production...
