A.I.-code 82391 colour EB

Breed 100% BA

Date of birth 2002-01-07

Gest. length days Gestation length Calving ease

Straw colour Zalm

The bull Tresor is a very large, impressive bull. This bull shows enormous width and size in his skeleton and is able to combine this with a very good mobility. Tresor is not for nothing registered with EX 90 points. The sire and the dam of Tresor were shown at the SIA in Paris. Tresor has a height of 1,68 in the withers and a very wide rump, for which he scores a 9.

Just as his sire, Tresor knows how to deliver primarily bulls of E-quality. Tresor knows how to dominate the index list in France for the third year in a row!! Tresor is a bull, who can work without boundaries within the Blonde breeding world. Especially since next to his E-bulls, he also scores for relatively easy births.

The French breeder admits that Tresor is well suited to be used as for easy calving. Tresor does his name justice: Treasure!
