Trio-Sex is an Ocean-View Sexation-son of the well-known Sheik-daughter Tria, a cow with enormous production figure. Also granddam Trina, a champion at the “Schau der Besten” in Verden, is an excellent cow for production and breeding.

Sire Ocean-View Sexation is well known as a conformation and protein sire. For his total appearance Trio-Sex is an all-round transmitter of first class quality. He sires an ideal fat to protein ratio, much milk and a very good type. Trio-Sex' s indexes for milk as well as for conformation traits have hardly changed in the last few summaries. He has 7000 daughters in milk, and they provide a high repeatability of these figures.

His daughters' conformation is characterised by, among other things, highly functional traits such as legs and udder support, and also the slight slope to the rump angle may be mentioned.

The excellent daughter groups of Trio-Sex at the various H.H.H-shows and at the National Cattle Manifestation (N.R.M) 1992 and 1994 clearly showed this.
