The well-developed, robust bull Uenk Pontos (PowerNap x Brekan x Maik) is a Red Holstein with a pedigree that offers more than just a stellar line up of the red-and-white population. His pedigree also boasts toppers from the black-and-white segment, such as Maik and O-Man. His maternal pedigree (the Anna line) is no stranger to K.I. SAMEN: this cow family already provided the bull chart with the red factor carrier Mexx.

With PowerNap as his sire, Pontos not only offers a bloodline that is a little more unusual (Jetstream x Potter), he has also inherited PowerNap's extremely high production. He combines a reasonable positive for milk production with sky high component percentages. His conformation can be classed as very good, all-round and faultless. Very positive points in his conformation include the slightly longer teats and the side view rear legs (slightly more curved than average).

The cows in Pontos' maternal pedigree (the Annas) show great persistency and progression as their lactations increase. For generations, a mixture of black-and-white, red-and-white and red factor bulls have been used in this line. For example, the red factor in this line can be traced for generations to the bulls Adler and Alpenrex. The cows responsible for the true expansion in this family are...
