Date of birth	2022-04-17
Gest. length days	
Gestation length	86
Calving ease	132
Straw colour	Oranje

Ulf van de Plashoeve is a well-developed bull, sired by Ugo. Ugo is justifiably a unique bull as all his sons pass on a very short gestation time.

Combined with Remco as his dam's sire, Ulf offers all the positive qualities you could wish for Ulf's maternal line is the Elke family, owned by the Morsink family, who have already supplied K.I. Samen with numerous bulls including Noud, Alfa, Alfa 2, Bob and Udo. To date, all the bulls from this line have satisfied the expectations and been used as breeding bulls due to the good calving ease they transmit. At 271 days,

Ulf also had a very short gestation time and therefore rates 5 out of 5 stars for calving ease. Good luck using this top of the range bull!
