Breed	100% BA
Date of birth	2004-01-08
Gest. length days	297
Gestation length	122
Calving ease	81
Straw colour	White

Valex is a very well built bull with very good feet & legs. This bull is a son of the French bull LePrince, from an Inedit dam. Valex is a very well developed bull with nice muscling and breed type.

Valex is translocation negative, as all of the Blonde bulls are that K.I. SAMEN has at their A.I. station. This bull is a bull, who was selected by AGB from France. With our collaboration with the French from the Pays Basque we hope to add something extra to the Blonde breeding world in the Netherlands. Valex will also be tested in France.
