  - Aot Santorius Hero ♀
- Valiant Rubels Madonna P-Red ♀
  - Hoogerhorst Dg Oh Rubels Red ♂
  - Valiant Magical Bourbon Shot P ♀

Valiant Hero Hercules Pp is the first Canadian bull purchased by K.I. Samen, with semen produced in Canada for the European market.

He is out of a very high-yielding Rubles daughter with excellent conformation and high components. His sire is AOT Conway Hero, a red-carrier bull that is not available in Europe. Hercules Pp is not only red, but also polled and comes from the well-known Mitey P family.

Hercules Pp shows plenty of skeletal length and strong legs. He is an outcross bull in the polled segment with no Lawnboy P blood. It is expected that Hercules Pp will not only bring in fresh polled bloodlines but will also produce good, functional dairy cows. Hercules Pp is the only Hero son available in Europe - and he is polled as well.
