In addition to Orlov and Duval, Vasco van Knokke is our third bull from the van Knokke stud.

Like his two stud mates, he offers a very interesting origin and can be widely used.

This is an important factor considering the increasingly closely related bloodlines within this breed. Vasco is a very typical bull for his type, has a huge amount of refinement and spectacular hindquarters. He is related to Windroos van Knokke (91.7), who in turn descends from classification champion Doyenne de Somme.

Vasco ... for purists !
