A proven paternal pedigree and a maternal line that boasts the impressive Sandras make Styles an extremely interesting, promising young bull. The standout points of the Sandra line are impressive production (fat and protein of around 5% and 4%!), equally impressive conformation and outstanding health traits. Originating from the Etazon Hyde family that, in the form of Sandra 2 (s. Malki, EX 92) has produced an absolute star of recent years. This influential Sandra 2 was named Dutch Cow of the Year 2024! Subsequent generations also prove the amazing breeding power of this line. The first high-profile bull from this family is Slash - now a reliable name - followed by various half-brothers who joined him at the AI station. Styles is now the 3rd generation after Sandra 2 and this stunning bull once again shows the perfect balance of height and width.
