Son of Pieter

- Herrenomad 1 Wrabe P ♂
  - Dirir ♂
  - Belstra ♀
- Schroorsma Pieternel 4 P ♀
  - Horstinge Williams P ♂
  - Schroorsma Pieternel 2 P ♀

Velner Pieter (Pp) is a polled Hereford bull. As a bull he has a good development and a generous layer of muscle which he combines with good feet and legs on which he walks very easily. Another important feature is his docile character. This bull is actually quiet and easy to handle.

With his unique pedigree, Pieter can be widely used in breeding. His growth is exemplary and he takes on weight quiet easily.

The calves of Pieter will probably be born easily, which is often the case in this breed. Next to being used for pure breeding he can also be used as an easy, calving bull in many other beef breeds. In addition, he could work quite well as a cross bull with the Black and Red Holsteins.

Pieter is a more than welcome addition to the Hereford breed and will certainly play a significant role in improving the breed further.
