A.I.-code	36962	Beta Casein	A1/A2
aAa code	546312	Cow family	Isa
colour	ZB	Straw colour	Orange
Breed	100% HF		

VVH Repairman (Maik x Snowman x Shottle): his name is a wonderful example of what this bull can achieve.

A great, complete appearance with the required round characteristics (aAa 546) is something we've been anxiously waiting for within the Holsteins. But that's not all. Repairman also has a dream pedigree. To start with the bulls in his pedigree can be counted among the absolute top of the breed. In addition Repairman comes from the family of the top bull Iota and thus has the legendary Regancrest Dellia's (EX 95) in his pedigree.

Hoekland Maik, the sire of Repairman, is one of the top bulls from Repairman's pedigree. The bull has already stood for a considerable period of time at the top of the NVI-breeding figures list due to a large number of daughters. Maik provides extra width in the cows and an additional muscle resulting in cows that have easy production (hence they fall quickly pregnant again). Every year, the well-uddered Maik daughters deliver yet once again (very late maturing) and with long sustainability partly due to good udder health.

Repairman's dam line originally stems from the USA. We're talking about the Regancrest Dellia family (known, for example, for the proven bulls Durham and Iota). In Repairman, Dellia (EX 95) can be traced back to the 5th...
