aAa code	243	Cow family	Waldclass Britte
colour	ZB	Straw colour	Orange
Breed	100 % HF		

Red factor carrier Waldclass Fedde RF (Freestyle x Profit x Esperanto) is an A2A2 bull originating from a Dutch cow family (Bea/Britte) which has regularly produced interesting bulls, certainly in recent years. For generations, the line has represented a perfect combination of good conformation and good production.

One of these standout sires is the breeding bull Beatle. His dam Bea - who is also the 4th dam of Fedde RF - is a Fever daughter and the fifth successive generation of cows to score VG. A full sister of Beatle, Commander daughter Britte is the 3rd dam of Fedde RF. A generation along finds Esperanto Britte. Fedde RF's grand dam partners good production with very good conformation. She will shortly give birth to her fourth calf and embryos flushed from her and fertilised by E-profit produced several good daughters. They include full sisters Britte 5 (VG 85), Britte 6 (VG 86) and Britte 8 (VG 86). Britte 8 produced Fedde RF and not only has very good conformation, but has now also completed a worthy first list with a lactation value of 120.

Fedde RF inherited the red factor from his sire Freestyle. Calving ease bull Freestyle is known to transmit high milk production, with neutral components. With Gywer x Born in his ancestry he also offers an unusual pedigree....
