

361142 • Waldclass Wesley Delta Window Red x Drouner Khw Fraiko • aAa: 234

- Pedigree with reliable, proven breeding bulls
- Low kinship
- Average to easy calving
- Kappa casein BB

Waldclass Playgirl 5 (VG 86) (half-sister of Wesley)

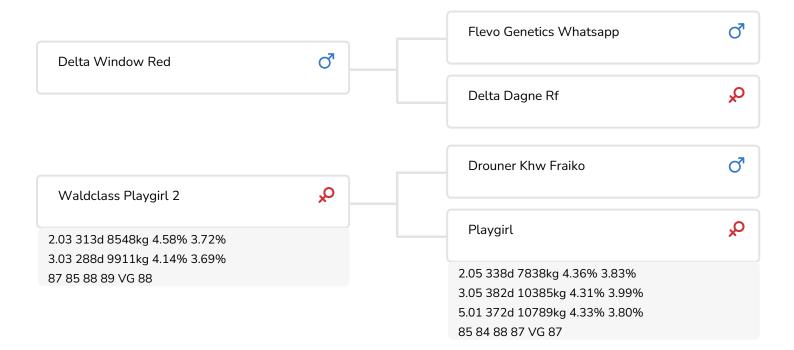

PRACTICAL PROVEN BREEDING

BULL INFORMATION

Name Waldclass Wesley Date of birth 2017-06-26

Herdbook number NL 609206555 Gestation length 280 A.I.-code 361142 Kappa Casein BB aAa code 234 Beta Casein A1/A2 colour RB Cow family Playgirl Breed 100% HF Straw colour Groen

The Red Holstein bull Waldclass Wesley (Window x Fraiko x Ideal) is an ideal addition to K.I. SAMEN's portfolio and brings a breath of fresh air to the barns with his bloodline. It's not just thanks to the sires in his pedigree that he carries the name outcross, the pedigree on his dam's side also offers something a little unusual. No bull from this Playgirl line - known for its rich protein - has been tested before by K.I. SAMEN.

The Playgirl pedigree is abundant in traits (including protein and conformation) of a very high calibre. Several cows from this family also appear to have extremely good breeding capabilities. One of these is the great granddam of Wesley, an 87-point Canvas daughter Hiltje 5823 (out of Hiltje 1099 who merited 86 points). This exceptionally productive Hiltje 5823 produced more than 80,000 kg of milk, with milk recording lists of more than 15,000 kg milk and an average lactation value of 122. As well as excelling in the production stakes, she also proved her worth as a breeding cow. Her many very good daughters include Ideal daughter Playgirl (Wesley's granddam) and full sisters Birdy and G-Spot.

These daughters by G-Force both rank 86 points and until present have produced more than 50,000 kg of milk. Playgirl 2 (Wesley's dam) also seems to have the...
