colour	ZB	Straw colour	Purple
Breed	100 % HF		

If you are looking for bull that produces moderately sized, efficient cows with good width and very good udders and legs then look no further than Weggelhorster Checkboy (DG Checkmate x Santana x Survivor). Add to that his interesting, outcross pedigree and durable, productive maternal line and this all-round bull ticks all the boxes.

Checkmate's sire is a very good all-round bull with outstanding health traits and Checkboy has definitely inherited the same great longevity and health traits from his sire.

The foundation dam of Checkboy's family, Hannita (VG 89), produced 100,000 kg of milk. The following generations noted lifetime production between 50,000 and 100,000 kg of milk, with Checkboy's dam, Weggelhorster Hannita 169 being the latest to achieve this. She is an impressive cow with flawless, complete conformation and exceptional fertility. She calves again just after or within a year, and has therefore already gained four months after seven calves.
