Weggelhorster Rebel (Leko x Shogun PS x Ramos) has bulls with a high reliability factor in his pedigree that stand out in terms of secondary traits. They each score very high for durability and have above average scores for somatic cell count, fertility, persistence and late maturity. Much is expected from Rebel in this respect given the very good scores in his maternal line (the Dirnel's).

Leko, the sire of Rebel, has been an A.I. bull on the market for some time now. This Laudan son knows how to handle himself in the top of a list with bulls who have a reliability factor of more than 9%. Leko is a dairy bull, especially in terms of production and with a strong emphasis on persistency and late maturity of his daughters. Next to that, Leko-progeny know how to combine this with good fertility, an average cell count and high durability numbers. The latter is probably a result of the conformation of these cows. The Leko's are namely average sized and have magnificent udders and very good feet & legs.

Rebel's maternal line (the Dirndel's) paint a similar picture. Cows with a sound confirmation (8 generations VG or EX cows), who can easily handle good production levels given their sound fertility. Two of the most impressive cows from this line are the excellent...
