| A.I.-code | 361075 | Kappa Casein | AB |
| aAa code | 243 | Beta Casein | A2/A2 |
| colour | ZB | Cow family | Dirndel |
| Breed | 100% HF | Straw colour | Groen |

Good cow families are what form the basis for the selection process at K.I. SAMEN when it comes to selecting new bulls. The Dirndel family, the cow family of Weggelhorster So What (Beladi x Jammer x Shottle), registers high on this list for K.I. SAMEN's. The Dirndel line has been very successful with daughter proven bulls such as Santana, and more recently Ashburton. Both bulls have very good production dispositions and inherit good conformation (namely udders and feet & legs), as well as good secondary traits (cell count and fertility). Plenty of reasons to give this Dirndel son a chance.

The sire of So What, Beladi, was born in Denmark and was tested in Germany as a proven bull and books great, all-round figures. He can improve just about everything in terms of production: a plus for milk, fat and protein. Additionally, Beladi produces average sized, sturdy cows with good udders and legs that are somewhat more crooked than average. He scores exceptionally well for cell count, fertility and durability.

So What's maternal line is the Dirndel's and they have been a very successful cow family for K.I. SAMEN (see above). In the pedigree of So What there are 8 generations of VG or EX cows, all with lactations of high protein. The 3rd list of So What's dam has the...
