

Alger Meekma

Breeder: Fa. D. de Jong, Buren

Willemschoeve Rita 221 (EX 93)
(great-granddam of Jasper WH)

BULL INFORMATION

Name	W.H. Jasper	Date of birth	2000-05-14
Herdbook number	NL 279792136	Gestation length	284
A.l.-code	36454	Kappa Casein	
aAa code	531	Beta Casein	
colour	ZB	Cow family	Rita
Breed	100% HF	Straw colour	Light Blue

Willemschoeve Jasper (Jaguar x Lord Lily x Jabot) is a well developed, correctly build bull with a proven pedigree (as well the male- as the female line). A pedigree containing top conformation, high longevity and high protein.

Jaguar descends from a dam line with good longevity and is supported by top longevity bull Mountain. Mountain is a typical all-rounder, a balanced profile with high protein and good feet & legs.

The dam line of Jasper is one of the most famous and popular cow families in the Netherlands. The Rita's can be found regularly in the spotlights during individual shows. This family however, is perfectly able to combine high production with top conformation. The Rita's in the dam line of Jasper score successively average lactation values of 130, 128, 122 and 108 and 87, 87, 93 and 93 points for conformation! This results in high lifetimes and high lifetime-productions. Starting with great granddam Rita 221 (EX93) three generations Rita's managed to produce average more than 80,000 kg, with the knowledge that Rita 221 and her dam Rita 52 are still alive and kicking.
