

Alger Meekma

Breeder: Thomas Holtkamp, Vreden, Duitsland

- + Outcross
- + Plenty of milk
- + Heterozygous polled
- + Good health traits and longevity

BULL INFORMATION

Name	Wilder Systematic Red P		
Herdbook number	DE 0541194748	Date of birth	2020-01-28
A.I.-code	361247	Kappa Casein	BB
PFW code	C	Beta Casein	A1/A2
aAa code	243	Cow family	Ipatty
colour	RB	Straw colour	Paars
Breed	100% RHF		

Whereas most polled bulls fall short of achieving the levels shown by customary (genetically horned) bulls, the German-bred polled bull Systematic P (Pp) (Solitaire P x Born P x Apoll P) disproves this. His maternal and paternal lines both score exceedingly well for production and conformation. In addition, his polled sire, grand sire and great grand sire rank among the best polled bull sires. This has already been proven by the performances of the progeny of grand sire Born P and great grand sire Apoll P.

Solitaire P (the sire of Systematic P (Pp)) is not a breeding bull yet, but is still an extremely interesting bull. This bull's wonderful pedigree (Salvatore x Balisto) means he was one of the most commonly used bull sires of the past year. Solitaire is known as a calving ease bull and his scores on paper promise a lot of milk and good conformation (including correct udders). His scores for health traits and durability are also extremely pleasing.

The I family, that makes up the maternal pedigree of Systematic P (Pp), lists several cows who note lifetime production of more than 100,000kg of milk. Odyssee daughter Inka (VG 87), a member of the 5th generation, is just one example. Inka produced over 115,000 kg of milk, while her great great grandam Inge achieved 120,000 kg of...
