Wilskracht Camino Red is a true one of a kind. His renowned dam Wilskracht Warsi 879 collected a raft of silverware, including the reserve champion title in the senior red-and-white class at the HHH show in 2022.

Warsi 879 is a hard-working cow, as demonstrated by her way above average lactation values over successive lactations. Her current production figure is more than 65,000 kg. The cow family behind the Warsis - the Etazon Warsau line - has been a regular supplier of bulls from various branches of the family on a large scale for many years. Recent additions include Red Ravello and Owner, while before them Winsome and Albiorix rf also originated from this family.
