WS Trenton (Pp) is bred by Guido Simon (Dld), who has been committed to introducing the polled gene into the population for years now. The Jersey breed has been gaining international importance with regard to the pursuit of greater efficiency. K.I. SAMEN is therefore pleased to add this bull to their portfolio.

Trenton is a hornless Jersey bull and has Dallas PP as his sire. Dallas PP was the first homozygous hornless bull, who was first put to use by Select Sires.

The maternal line has several generations in a row of very strong and beautiful cows. The dam is the daughter of Gannon and is registered with VG 89 points. The grand dam is a Fyn Lemvig daughter and is registered an excellent 90.

Trenton is an open, dairy typical Jersey bull, who brings with him the traits of his maternal line and combines this with the hornless gene of his sire.
